Thursday 7th July - Reception and KSI Sports Day

Friday 8th July - KS2 Sports Day

Wednesday 13th July - Year 2 Production

Thursday 14th July - Year 5 Production

Updated Website

Recently we had a photographer visit to record life at Swan Lane. By far the most exciting moment was when he captured the whole school using a drone! If you haven't already, head to the website to see the updated photos and a video of our wonderful school!

Orienteering Success

Recently we entered the School Games Orienteering Competition at Prince Henry's High School. We took 7 teams to the event which allowed 28 children to take part! Our Cheetah team came 3rd overall, thanks to some great teamwork. These 4 children will go on to represent South Worcestershire at the Summer School Games in June!

Reminders

We appreciate the busy nature of daily life can often be hard to manage, but please could you try to:

- Inform the office if your child has an allergy or medical issue, and keep us updated with any changes.
- Ensure that the school has any medication your child needs, and that it is **in date**. This is your responsibility.
- Let the school know if your address or telephone number changes
- Order your child's school meal by the Tuesday of the week before, if your child is having a school meal.

Thank you!

Platinum Jubilee Celebrations

We had a glorious day on 27th May celebrating the Queen and her Platinum Jubilee. We spent time on the field trying a range of fun activities, learned about the Queen and planted some commemorative trees on the field.

Thank you so much for all that attended picnic, it was so wonderful to see so many families spending time together and the children all had a brilliant time!

Planting

In the days before the half term break, children from every class got the chance to plant some vegetables in the raised beds around our school. They will have the chance to water, nurture and take huge pride as these vegetables begin to develop. It was an enjoyable experience for all, and we are excited to see how newly planted seeds then grow!

Pet Day in Reception

In Reception we have been learning all about animals and enjoyed welcoming in our own pets to celebrate Pet Day. It was wonderful to meet your pets and to hear all about how you look after them. Thank you very much to all of our parents and carers that were able to bring their pets in to share with us!
